A Great Sensation Over the Railway Commission Bill.

A LIVELY CONTEST INDICATED.

At the End of Ninety Days the Governor Promises to Appoint Two Democrats and a Prohib:-

of the legislature were aware of it until after both houses had adjourned, and now groups of men fill the bals, lobbies and rotunda, discussing the situation. In brief, the govcrear has appointed two railroad commus-sioners to take the place of J. H. Slater and George B. Vaggoers, whom he removed "for cause." The new appointers are Charles P. Church, of Portland, and George H. Biggs, of Wasco county. Their commissions were made out and signed this evening, and Biggs, who is hore and was in the state house at the time. was called into the governor's office and given his commission. That of Church was put in the mail, and he will receive it to-

The governor bases his action upon the fact that in the new law, there is a clause which reads "this act shall take effect and so in force from and after its approval by "hie governor." Since he did not approve the bill, he holds that the law will not go into effect for ninety days, and the logislature had no right to elect commissioners. and until this law goes into effect, the old law is in torce. He has appointed the two gentlemen above named for the cusning by day, no peace by night. Doctors and

Immediately upon learning the governor's action, an Oregonian representative called upon him in his private office. Its excellency was in high good humor, and frequently laughed heartily as he spoke of the

There is but one board of railroad commissioners, said he, in reply to a question, and I have just appointed it. I removed the two commissioners from office during the first days of the session, in order to give the legislature a chance to better that law. It has passed another law, which does not gointo effect for ninety days, and in the meantime the offices of railroad commisaloners are vacant. It becomes my duty to fill those offices, and I have done my duty."

But the legislature to-night, in joint convention, elected three relirond commission-Their action was wholly without author-ty of law, and is null and void. The men whom I have appointed to night are de fecto and de juse the board of railroad commisslopers of this state. I have looked up the law on the matter, and I know I am right."

"I'll tell you another thing, my young friend," and his excellency laughed again as he thought of what his was going to say, "In ninety days I shall have three commissioners to appoint. The law says not more than two of them shall belong to one political party. I shall ampoint two democrats and one prohibitionist. No republican need apply!"

Governor Pennoyer was not content with having his veto of the Portland water bill published in The Oremonian, but he must needs send it to a New York paper. On Tuesday he received the following brief dispatch from the New York World:

A large crowd was presteration of foods. A large crowd was pres-cent, every seat on the Linin floor of the big-hall of representatives being taken, while the saliery was lined with spectators. The spirit of the law seems to be that one member of the ratiroad commission shall be a democrat. As we have not been accorded the privilege of naming our candidate, we shall present no one for the office.

Rell call was then proceeded with, and each republican responded by naming the regular nominees, the democrate generally voting

When his name was called, Bowditch said: Hone of the members of the commission is to be chosen from the party in the minority as the law scenes to imply, the party in the minority should have been consulted as to its choice. The jurity in the majority has usurped all power. I cannot vote for the gentleman (Clow) as thuch as I respect him.

Canthorn said that the democratic mem-

bers of the senate wanted the republicans to take all three of the commissioners, but they refused. "We have tried civil service reform during the past four years," he said, "and have found it a dismal failure."
"I am sorry," said Copswell, when his name was called, "that anything has occurred to man the pleasant relations that have

been maintained between the two political parties this session, but it is not our fault."
Miller of Jackson made a short speech, in which he maintained that the views of the democratic members should have been consuited. He predicted that two years honce the democratic party would be victorious at the polls. "And when that time course," he

said, "we will extend to you the courtesy you did not extend to us." Ventch prefaced his remarks by outlining his opposition in the senate to the provision of the bill requiring that only two commis sioners shall be of the same political faith and the refusal of the republicans to accept all three of the members.

all three of the members.

It is proper and right that the party in power should elect all three of the members, and by refusing to do so it practically granted the percy in the minority permission to elect one member. What was the result. The republican members of the house and senate met in secret concluse, and named three commissioners without the convent of or without constilling a single democrat, and now to-night recare asked to wak in here and ratify these fareless nominations. I protest against this high-handed procedure, the democratic infinity had provided in the convention of the convention of the protest in the name of the democratic minority of the democratic party in Oregon, and in the name of the democratic minority of the democratic party in Oregon, and in the name of every fair namical republican who takes this proceeding as we do, as an insult. when the republicans had a very slight ma-jority. The democrate bolled the joint con-vention, and throw the appointment of all the officers, which by right belonged to the republicans, into the hands of the demo-

She left no reseatment toward the thieves, who were her own men, but was convinced that they were being fisecad by two Colorado gambers named Farley and Goodell.

Cowboys from several ranches were in the gambiling hall on Monday night when Kate arrived accompanied by her foreman, both armed to the teeth. She is an expert horse-woman, and rode her miniad inside the doorway of the seloon. With a six-shooter in each hand Kate walked up to the fare table and ordered the dealer to "gat out." While Kate kept the gamblers cyerted with her revolvers, Muson, her foreman, explained to the crowd how the gamblers had been fleecing them. Farley and Goodell, the proprietors of the game, were dragged outside and badly beaten. Some of the crowd went for ropes, and, the lwo framblers were green, san minutes in which "to say their prayers." "Office "Kate" and "Mason secured the mother, pincunity to several thousand dollars.

The day was given up to packing and tearing up the Harrison mansion preparatory to moving to Washington. There were but few visitors to-day, it having become widely known by this time that both the General and Mrs. Harrison have discontinued recoglion hours.

It all Grew Out of an Assault Upon an Indian
HELENA Mont. Feb 21—The intense ex ment that has prevailed during the pas lew dava about the expected uprising of the Flithead Indians, has cooled down to a very Fithead Indians, has/cooled down to a very large extent, and as the real facts develop there is cause for wonder is to how the wild and exaggerated stories that were sent to the papers here were set affort about he matter. The only foundation for the flurry it seems was that Gutford assaulted an Indian striking him a severe blow on the head from which he is not expected to recover. Chifford was under the impression that the Indian had stoler gootstrom his store. The Indians claimed that the wrong man had been assaulted and they made threats of avenging death if the blows proved fals! The rumor of the Indian war grew out of this atlait.

The first amendment offered was one to averaged on the state insur note stamps from \$727 to \$814 27, which allows a reasonable rate of interest from the time of the purchase, this wis adopted.

The second amondment was to strike out

the appropriation of \$25 000 for the purchase of the electric light plant now attached to the public buildings and for the expenses of operating and maintaining said plant, and to insert, in hen thereof, an appropriation of \$10,000 to pay for two years, the electric light company now holding the contract. This was adopted after considerable discuss on a majority being opposed to purchasing the plant

Jennings moved to strike out the appropriation of \$805 67 for the pay of M P.

Miller of Jackson made a sarcastic referring to the eminent jurist and his dis tinguished services and saying that only a few days ago he had been on the floor of the house, offering his advice and counsel to the state regarding the passage of the Portiane ntil He thought the house should add \$250 or \$500 to this appropriation, in con mideration of the later services.

Gibert and Earhart explained the just ness of the claim Rowditch, Paulsen and Derby opposed the appropriation claiming that the state never hired Judge Deady, but that he was em ployed by private parties

The on endment was then adopted by a rising vote and a large majority and the appropriation was stricken out.

Enrhart offered an appendment to the fund for conveying means and idiotic patients to calling for the election of three rather

tentiary fund, adding an appropriation of \$1800 for the salary of the commissary, but the amendment was voted down
Miller of Jackson offered an amendment to insert another section in the bill pro-priating \$1717 17 for balance due on mort grage tax assessment, not adopted. The remaining portions of the bill were adopted unchanged, and the committee than rose and reported the b'll back to the house as amended. The report was depted and it e

bill was sent to the engrossing committee

Immediately after the joint convention in the evening the bill, which had been re-ported back correctly engrossed was taken up, read the third time and passed. Jenagainst the bit he or posing it for the reason that in the general fund there was an appropriation of \$4.00 for additional clerical service in the office of the secretary of state The chairman of the ways and meins com mittee stated that the appropriation had been put in the bill because it was necessary in order that the secretary of state implies any on the business of his office

Under a joint rule of the house and senate no bill can be sent from one body to the other during the last two days of the session, unless it have amendments or is sent bock for the signature of the presiding officer so the senate has been working all day on house bills and the house on senate bills The only exception to this rule is the general appropriation bill, for which the joint con rention to-night suspended the rule, and after it was passed by the house it was sent to the senute for its consideration.

The senate has been working all day or the regular calendar taking up the bills in the order in which they were sent in from the house reading them all the first time and then the second time by title, and then reading them the third time entire for final consideration. The house adopted the constrary plan, and in order to give every member a chance to call up one senate measure began in the center of the roll call working both ways. Both houses are working very rapidly, and all important measures will be reached before to-morrow night.

The bill to appropriate \$10,000 for a wagon road from Medford to Jacksonville failed to pass the house this morning although the Southern Oregon members made a strong

fight for it. Before may objections waterer had been urged in the louis, to the principle of the hill. Bowditch began to univer the state-

good in summer, but it was wholly impassnot able to unprove it properly
Apperson, Thompson and others set forth the abstraity of appropriating money for a road already constructed and in constant u.e. and when the vote was taken the bill was buried by an overwhelm ng majority

Some arr usement was afforded in the after noon when Maller of Jackson, offered an mendment to the general appropriation bill proving \$1 17 17 for the rehef of Jack on county from mortgage tax assessments Nearly every one at first thought it was a joke since a bill for the same jurpose had been badly defeated only the day before, but Milier earnestly urged the adoption of the imendment, saying that while other counties had only agoesed mortgages at one half or three fourths of their value Jackson county had assessed them at full vilue and pildid tax on them over to the state. He urged as mixtur of pistice to put Jackson county on a footing, with other con ties and that the sum be a ked he returned

Competitive Lines in Eastpru Oregen and Wank-ington To Be Placed in the Hards of Five Managora-Another Combination. NEW YORK, Feb. 21.—The Northern Facilic

New York, Reb. 21.—The Northern Bacific board of directors, at their regular meeting to-day, approved what is called the 'arbitration contract,' which is the spreement between the Union Pacific and the Northern Pacific Companies to place the courtool of all the competitive lines in Bastern Washington territory and Oregon in the lands of five managers, to be appointed by the parties to the agreement.

This will secure the advantages to both companies that would have resulted from a joint loase of the O. R. & N. Co.'s lines, and, at the same time, avoids the responsibility of guaranbeing dividends on that stock. The only condition connected with the contract is the control of the O. R. & N. Co.'s lines, and this will probably be obtained through the sile of the O. R. & N. stock, now held by the Oregon & Transcontinental Company, to the syndeste.

As the Oregon & Transcontinental Company, to the syndeste.

As the Oregon and the pather two the Union Pacific, and they are and they there is a from out of the six nembers of the O. R. & N. eccentive committee four represent the borteern Pacific and the other two the Union Pacific, and as they are all in favor of this contract no difficulty is expected.

A meeting of the Oregon & Transcontinental committee will be held next week to consider the means to carry out the plan.

THE ORGANIZATION COMPLETED.

The Interstate Commerce Railroad Association Recomes an Entity.

Cinicado, Feb. 21.—The proposition to perfect the organization of the Interstate Commerce Endroad Association with the lines that have signed the president's agreement, instead of laboring further with the companies refusing to sign, was carried today, and the association is now a fact. The Wisdonsin Control for some unknown reason changed front and signed today.

The Burlington & Northern gave its final answer, to the effect that it could not become a nember, unless its northern and principal competitors for the scaport trailie were also taken in.

The committee on changes in the agree-

doned, as it had been found impossible to carry it to success, owing to the obstructions placed in the way by the two roads named. This caused a selisation, and President Miller of the the St. Paul sharply reborted. After further distantion, and President Miller of the the St. Paul sharply reborted. After further distantion, Mr. Adams withdrew his resolution and apologized to Miller. At the afternoon session the objectors were finally brought into thie, and the sgreament was signed, with the understanding that it become effective intimediately. To four roads not in the agreement set the litinois Central, the Chicago, Burlington & Morthern, the Kansas City, Fort. Scot. & Memphis, and the Missouri, Kansas & Teuas.

The details of the agreement were not completed this evening. A committee was appointed to confer with interstate Commerce Commissioner Walker, and ascertain if he will accept the chairmanship.

THE TARIFF REFORM LEAGUE.

Several speeches were made against the tariff on the plate.

The conservatives were rather surprised to-day that the tree traders did not move to reopen the debate on the declaration of priciples. It transpires, however, that the inter had a conference and decided that they had gene before the courtry sufficiently in their speeches, and beheved that had they statished a moral victory in the convention. So when the convention reasonabled, the first paragraph of y seterday's report of the committee on resolutions was adopted.

The committee appointed in accordance with the resolutions, to perfect find prosecute the plans for promulgating the principles cutturerated, was selected as follows: Day & A. Wells, of Connecticut; Franklin MacVeigh, of Illinois; Arena Thomas, of Texas; Engene M. Wilson, of Minnesota; Frederick W. Lipman, of Lowa; Horace White, bf New York; J. A. Smith, of this; J. Sterling Morton, of Kebraska; Samuel Morse, of indiana.

Resolutions were also adopted instructing the committee to prepare a special series of tracts to farmers, and allowing the members to increase their own number at will. Selveral speeches were made during the alternoon, and the convention closed tonight with a grand hanquet.

Principles, Or., Feb. 21.—Spacial Agent Sannlars, who has been investigating the Imailia reservation affairs, has returned from Fortund to continue his inquiries here of the causes leading to the removal of Bartholomew Coffey as agent. Disclosures are made, apon examination of the agency accounts, which develop the feet that the deposed agent was not on the reservation so much for his health as for the accumulation of revenue. An investigation of the hoors and vouchers, and the examination of a score or more witnesses, revealed the existence of a system of sales accounts, the currying on the pay roll of employes under fictitious names, appropriating mousy this obtained to personal uses, and the castonical making fraudulent open market purchases of articles for use on the reservation that were never actually bought.

Start of the Six Day Race.

Say Francisco, Feb. 21.—Ten thousand people witnessed the start in the six-day-go-as-you-please race in the Methandes' pavilion at 10 o'clock to-night. The race is under the management of Frank Hall, of New York, and is for the championship of the world, one-half of the grass gate receipts being divided among those making 525 miles or over. William O'Gonnor, the carsman, acted as starter. Arthur Blake and Thomas Jacoby, of this city, are judges.

The track is eight lops to a mile. There were twenty-eight starters, the most noted ones being George Cartwright, of England, Frank Hart, the colored champion, 'Old Sport,' of Campana, Gus and Peteduarero, o'California, Robert Viat, Thomas Howarth, E. C. Moore and Jerry Taylor, of Buffalo. The others are all of local celebrity.

Promptly at 10 o'clock the men were started on their long journey. Gus Guerrero led on the first lap, but was passed by Cartwright, who made the first mile in six minutes, Gus Guerrero being second. Guerrero led at the end of the second mile.

At 1.A. M. the score stood: Cartwright, 23 miles; Pat Guerrero, 21; Moore, 23; Howarth, 25; Watson, 22; Hart and Gus Guerrero, call 22; Vint, 22; Taylor, 21; Sheridan, 19. These are the ten leaders.

When Miss Newham ticks there is a perpendicular line that flashes from her hip upward past her shoulder, nost her shell-like ear, and iorminated by a green allpper waving triumbanily above her golden halr. For a moment she looks like a human being with one leg. The other leg has disappaired entirely from the place where it is usually found, and then as the dancing becomes more fast and furious, and it is impossible to follow her movements with any degree of sectracy, she seems to have two limbs on one side of her body—one over her head and the other with the foot still resting on the floor.
